DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of claims 2 and 3 in the reply filed on 07/14/2006 is acknowledged. The traversal is on the ground(s) that "...the Examiner will search overlapping classes of art as is required to search the invention of the elected claims, resulting in the same references being considered relative to both of the aforementioned groups of claims...". This is not found persuasive because these inventions have acquired a separate status in the art in view of their different classification and because these inventions are independent or distinct and require a different field of search, giving additional burden on the examiner.

The requirement is still deemed proper and is therefore made FINAL.

2. This application is in condition for allowance except for the presence of claim 1 directed to an invention non-elected with traverse in the reply filed on 07/14/2006. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
